

The Light Has Come (Mary & Elizabeth's Song)

Ashley Fruhling, Sean Hill and Jeffrey Todd McVicker

Verse 1

Could it really be?
Miracles are happening
I just can't believe
The miracle inside of me
This is why we prayed
Does it have to be this way?
What else could explain this holiness?
Just a little faith
Is that all it takes?
It will be okay, you'll see

Chorus 1

Can it be
Here in me
That hope would come alive tonight
This mystery
That You choose me
So hope could come alive tonight

Verse 2

Who would dare believe
The scandal of divinity
But see I have conceived
This is divine reality
Words are not enough
To convince them this is love
What about my son will prove He's God?
Despite what they believe
We've already seen
This could only be our God

Chorus 2

Can it be
Here in me
That hope would come alive tonight
This mystery
That you choose me
So hope could come alive tonight

Bridge (2x)

The light has come
The light has come
The light has come in everyone

Chorus 3

Can it be
Here in me
That hope would come alive tonight
This mystery
That You choose me
So hope could come alive tonight

Ending

This is why we prayed
It has to be this way
What else could explain this holiness?
Just a little faith
All I have is faith
Mary what's His name?
His name is Jesus
