

Fun & Easy Party Ideas

Inviting people to your home can be intimidating, but we want to give you five ideas to help get you started.

1

Plan a Watch Party!

At every great get-together there's always good food, drinks, music, and great company! So, make sure you have your favorite playlist locked and loaded. Get the table set with some of your favorite fail-proof dishes, and don't forget to add some allergy-friendly options.

2

Invite your neighbors, too.

Take a walk next door to give your neighbors all the details and let them know they're invited! While you're there, send a text with the date and time. For special occasions (like Easter and Christmas), we'll be sharing invitations on social media. Follow us [@victoryatl](#) so you don't miss them, and be sure to repost for your friends and family to see!

3

Host a backyard BBQ.

If the weather is warm enough, it's the perfect time to fire up the grill and enjoy some BBQ with your crew! If you know some of your grilled items will take a little longer than others, be sure to put them on the grill before the party starts so you have time for the really important thing—connecting with your guests!

4

Have a scavenger hunt.

Inviting guests with kids? Take the fun up a notch by planning a scavenger hunt for them. You can do a quick search online to find some ideas fit for various age ranges. And if you have younger kids, you can also set aside activities for them to participate in during the Watch Party, too.

5

Set up a movie night.

Turn your Watch Party into a movie experience! Pop some popcorn, don't forget the sweet treats, and set out some blankets in the living room. Got extra space in the backyard? Bring your blankets and some lawn chairs outside. And it's always a good idea to have a weather-proof backup plan!

We hope that you find these tips helpful for planning and inviting guests over for your Watch Party. We can't wait to see and hear how God moves! We'd love for you to share your experience with us on social media. Make sure you tag [@victoryatl](#) and include [#wearevictory](#) so we can celebrate with you!
